📍 UA/Vinnitsa

SUMMARY

With over 8 years of experience in web development, I have built more than 1000 projects of various complexity, ranging from small landing pages to large-scale web applications. I hold a higher technical education and specialize in frontend development with a strong focus on performance, accessibility, and clean architecture.

There are rarely tasks I cannot handle — whether it's mobile-first or desktop-first approach, BEM methodology, Tailwind CSS, Bootstrap, animations, or complex visual effects, I deliver with confidence and precision. I consistently optimize projects for speed and usability, ensuring the best possible user experience.

I'm committed to continuous learning and regularly take advanced courses to stay ahead in the ever-evolving frontend ecosystem — because growth is what fuels excellence.

SKILLS

Animations	React	JavaScript	GSAP	Redux
TailwindCSS	SCSS	BEM	TypeScript	Git
GitLab	Next.js	Node.js	Webpack	Gulp
HTML5	Copilot	SVG	Pixel Perfect	
Mobile or Desktop first
